

MyTennisGroup.com is a web-based tennis scheduling and marketing solution for Tennis Centers.

MyTennisGroup™ SOFTWARE AT A GLANCE

MyTennisGroup software adds directly to your bottom line while helping your Center run more efficiently by minimizing open court time, and the time your staff spends filling sub requests or scheduling matches, and maximizing lesson time and merchandising.

MTG Scheduling Wizard: Players manage their own groups, track player availability, generate their own schedules and line-ups, have access to a personal calendar, and receive automatic email reminders of upcoming matches.

MTG Find-A-Sub: Players find their own subs! Players may alert individuals, a select group or the entire Center's sub list of a vacancy. Once confirmed, the substitute is automatically notified and added to the schedule.

MTG Announcements & Email: Your Center can email all members or select groups to promote events and products. Have open court time? Use this powerful feature to fill it instantly.

MTG Lesson Proposal: The pro manages his or her lesson schedule online. Pro's may alert a specific student, a select few, or their whole list about available lesson times.

Already have a web site? MTG's flexibility allows for seamless integration.

HOW MyTennisGroup™ WORKS

MTG's Scheduling Wizard

1. Enter group information
2. Enter player information and the number of matches each player wants to play
3. Generate schedule

It's as easy as 1-2-3 to generate a schedule that is accessible to all players

MTG's Find-A-Sub

If a player needs a sub, he enters the information on the site....

...and an email is automatically sent to all available players.

MTG's Lesson Proposal

Pros manage their lessons online and can alert any or all students about events or open lesson time...

...selected students receive a notice to take advantage of the available time.
